

With windows and doors open, whole house fans suck hot air out of your home and push it into the attic. Warmer attic air then is pushed out, helping to cool down the entire building.

RIVERSIDE PUBLIC UTILITIES WILL PAY YOU \$200

for purchasing a whole house fan that can keep you cool while dramatically cutting your energy costs!

**Some restrictions apply.*

Benefits of a whole house fan include:

- Cooling the entire home naturally, using ten times less energy
- Fast temperature stabilization throughout the home
- Energy efficient substitute for air conditioning
- Inexpensive to install and requires little or no maintenance

To find out more about this, and other great energy saving rebate programs we offer call 826-5485 or visit us online at: **RiversidePublicUtilities.com**
